Profile

Project Manager with a software engineering background and experience leading digital platform delivery across B2B environments. Strong in roadmap planning, scope control, stakeholder management, release governance, and cross-system coordination across hybrid Agile and Waterfall delivery models.

Experience

Keboon Technology Solution — 2024 – Present
B2B startup software house — Full-time

Founding Technical Project Manager — Aug 2024 – Present

- Led delivery of a multi-tenant marketplace platform from concept through phased rollout.
- Defined MVP scope, backlog priorities, and delivery roadmap.
- Managed stakeholder alignment, budget planning, and scope control.
- Coordinated integrations across Marketplace, Loyalty, POS, CRM, and payment systems.

External PM Advisor (Synergy Alliance / BigPOS Provider) — Concurrent

- Ran governance meetings across Product, BA, UI/UX, and UAT stakeholders.
- Improved release planning, accountability, and onboarding structure.

CIS IT Solutions Sdn. Bhd. — Norwex — 2021 – 2024
MLM and eCommerce software house — Full-time

Test Lead — May 2023 – Aug 2024

- Defined release readiness criteria and acted as quality gate before deployment.
- Coordinated validation across internal teams and client QA members.
- Reduced delivery risk through structured test planning and reporting.

Software QA Engineer — Sep 2021 – Jun 2023

- Supported sprint execution, release timelines, and requirement alignment.
- Worked cross-functionally to remove blockers affecting milestones.

The M9 Group — 2019 – 2021
IT services and software development provider — Full-time

Software Developer — Feb 2019 – Aug 2021

- Developed backend features using C#, .NET Framework, and Azure.
- Built APIs and business logic based on client requirements.
- Supported stakeholder discussions and deployment activities, including on-site rollout in England.

Concentrix — Dell-AIG **2020 – 2021**
Global technology and services environment Project-based

Migration Engineer Dec 2020 – Jun 2021

- Delivered enterprise OS migration within a controlled transformation framework.
- Performed validation checks to support stable release transition.

DXC Technology — Commonwealth Bank of Australia **2017 – 2019**
Enterprise IT services and financial services environment Full-time

Technical Representative Dec 2017 – Feb 2019

- Managed incident resolution against SLA targets.
- Coordinated internal teams on multi-layer technical issues.
